

Adopter/Foster Application

Thank you for expressing your interest to foster and/or adopt a Greyhound as Pets (GAP) greyhound.

Greyhounds from Greyhounds as Pets have been vet checked, desexed, vaccinated, microchipped, wormed and heart worm tested. We observe each greyhound to best match them to foster and adoptive homes. Greyhounds are introduced to pet dog life through our foster-to-adopt, fostering and habituation programs.

Terms and conditions

I agree that Greyhounds as Pets make no guarantees that the dog being placed is dog / cat / pocket pet friendly and will not hold Greyhounds as Pets responsible in the event of an incident. We are only able to advise of the dogs suitability and all care is the responsibility of the adopter to ensure that the dog is supervised in the home with other animals and children.

I agree that I have been honest and truthful in my application. By applying to adopt a greyhound from Greyhounds as Pet I agree that if successful. The dog will be placed on a 2 week trial first. After the 2 week trial the dog can be formally adopted only by mutual agreement between the owner and adoptee. The applicant also agrees that should the dog ever need re-homing in the future that Greyhounds as Pets be contacted first and the dog MUST be offered back at no cost to re-home. If this situation arises the applicant agrees to provide a full written history including vet incidents of the dogs duration with them.

I have read and agree with the above terms and conditions.
